Short Description
This course is for students who already feel confident in their essay writing abilities. Students opting for Advanced Academic Writing should have a full mastery of English grammar and academic register and be able to write well-structured and cogent essays. The class is focused around a novel which students read and write on extensively. We also read a number of critical articles which form the basis of secondary material for writing assignments. Through a careful examination of the entire writing process, students are provided with the means to master an academic style which complies with expectations across the entire program. This is an intensive course involving numerous unassessed short writing tasks and frequent peer-review exercises.

Final grade components

Minor assignments:
- Reading quizzes (5%)
- MLA list of works cited (5%)
